8. Mr. Gulbahar Raj, DME, NHM,Karimganj.
9. Bharati Bhowmik, DCM, NHM,Karimganj.
10. Mr F U Ahmed,DFPC, NHM, Karimganj.

The meeting started with welcome address by the Joint Director of Health Services, Karimganj.

The following points have been discussed and decisions have been taken:

1. **Discussion on District Preparedness for Ensuing WPD:** The committee discussed about the district preparedness regarding the ensuing World Population Day & Fortnight 2021. It is to point out that due to ongoing Covid-19 vaccination programme in the BPHC areas along with urban areas, the S.D.M. & H.Os are spared to attend this DISC cum Preparatory meeting for this WPD.
2. **Preparation of Action Plan:** The Dist. FP Coordinator have presented a tentative action plan for this WPD'2021. As per ELA given by the state for this WPD, the given ELA is distributed among the BPHCs as well as for all the Health Institutions considering the factors like population covered, trained man power, availability of infrastructure etc.

The main points of discussion and decision thereto is briefly mentioned below:

Laparoscopic Sterilisation: Considering the present Covid situation, it is decided to conduct LS on camp/FDS mode, maintaining the SOP. DFPC is advised to prepare a tentative LS camp schedule after contacting all the Health Institutions where FDS is carried out generally. The same should be finalized in consultaion with the two Lap Surgeons.

NSV: It is decided that as in Karimganj, at present, there is no trained NSV Surgeon, NSV camp should be postponed till the situation is improved. The BPHCs are requested to keep ready counseled line list of NSV and whenever Surgeon will be available, NSV camp will be conducted only in District Hospital with prior confirmation of hired surgeon. The BPHCs/HIs will be communicated on time.

The DISC also decides that the Laparoscopic Surgeons be strictly instructed to attend the FDS on time else it creates a problem in drop back of the beneficiaries.

PPIUCD: For PPIUCD, ELA is distributed among the individual HI. It is to point out that in many institutions, it is seen that after training, the trained person is transferred to other districts creating a vacuum which hampers in performance of that particular institution.

It is decided that as per the instruction of higher authority, individual institution should strive to achieve the target of 25% of institutional delivery.

Further, it is also decided that those BPHCs/HIs which are not performing PPIUCD, they should be persuaded to conduct the PPIUCD.

Regarding training of PPIUCD, it is pointed out that many institutions are manned/ lead by MO (A) but as per SOP/guidelines, they are till now excluded for PPIUCD Training. It is opined that considering the shortage of MO MBBS, the MO (A) heading various intuitions should be given training for PPIUCD as they are allowed to conduct delivery in their respective health institutions. Moreover, in the last year ROP, for PPIUCD training, the CHOs are allowed to

attend the PPIUCD training. So the district seeks approval from appropriate authority to allow conducting PPIUCD training for MO (A).

IUCD: IUCD will be conducted as usual by the BPHCs/HIs/SCs. It is decided that for IUCD camps, the BPHCs are free to conduct camps both individually or by clubbing two or three SCs or in any PHC but the performance will have to be included against the respective institutions. The IUCD performance in Civil Hospital need to be improved.

Antara: For Antara, it is noticed that there is a gap between the 1st dose and subsequent doses which resulted in a higher drop out. Therefore, it is decided that the beneficiaries should be counseled adequately by Health Workers to minimize post Antara psychological stress and menstrual irregularities. The ANMs/ASHAs/AS/MPWs etc. should be sensitized so that the drop out can be minimized.

3..FPLMIS: It is decided that as distribution of FP commodities is an integral part of FP activities, it is urged that this aspect should also be given equal importance by all health workers especially by ASHAs. To ensure uninterrupted supply of FP commodities from top to grass root level, GoI has initiated FPLMIS and all Health Institutions/ASHAs are already given independent user IDs for smooth functioning through three modes of operation viz. mail, FPLMIS app and SMS.

It has been viewed that in Karimganj, FPLMIS is not functioning smoothly especially at SC & ASHA level. So it is decided that the S.D.M. & H.Os/In-charge of concerned/respective health institutions should keep a close monitoring of the functioning of FPLMIS for BPHCs/HIs.

4. LS Failure Cases: There is no failure cases submitted in this 1st Quarter.

The meeting ended with vote of thanks from the chair.

Addl. Chief Medical & Health Officer (FW)
cum Member Secretary, DISC,
Karimganj
