Stay Healthy. Be Safe.

# Always Use a Condom.

## Advantages of using a condom

- Helps in the prevention of sexually transmitted infections (STIs) in both males and females
- The best way for protection against unwanted pregnancies
- Reduces the chances of HIV transmission
- Condom use can protect women from the pain of abortions (MTP)

Use condoms.  
Live healthy.

Don't take  
HIV  
transmission  
lightly.

Use condoms  
to avoid  
abortions.

It is better to be  
protected than  
to regret.

Don't  
take risks.  
Use condoms.

Use condoms instead of frequent MTPs

It is advisable for men and women  
to keep condoms handy.

Condoms are distributed for free by the  
Government in petrol pumps, ration shops,  
wine shops, pan shops and dhabas.
